

membership Report 2011

The membership at Biddulph Amateur Swimming club has escalated throughout the year. Our total membership as of 4th December is 152 members of which 128 are competitive swimmers and 24 adult members, of which are committee members, parents and helpers.

Our aim for 2012 is to continue to improve our growth especially as we now have more water time available, daily sessions for Scopio members across the Staffordshire area.

This will and has attracted members from a broader area of the county. These facilities will and has made our club not only richer in quantity and quality, and not being known to be a small club any more.

Watch this Space. Next year I will advise all nine year old members to have level 2 ASA registration which will enable more to enter competitions. This year we have 40 swimmers entering the North Midland Championships which must be a club record.

Many Thanks for everyone's support, and long may it continue
